

Perth Tango Club Teaching Policy

At Perth Tango Club, we believe that teaching tango is a vital activity to achieve our goals of promoting and developing the art and culture of Argentine Tango. We offer an in-house "Basic Tango" or "Beginners Tango" program, exclusively for our members, and third-party teaching. The Teaching Policy is designed to introduce people to the art and cultural background of the Argentine tango and equip them with the necessary skills to participate in the social life of the Club.

In-house programme:

We neither endorse any local teaching establishment nor favor any one establishment over another. Furthermore, we do not allow any member who teaches tango for a commercial return to teach the in-house program. This measure is to avoid conflicts of interest. All instructors and assistants volunteer their time and expertise free of charge for the in-house program they run; this is consistent with other Club volunteer duties.

Furthermore, we encourage our members to expand their tango experience beyond the basic tango program by attending more advanced courses or workshops with local teachers or schools.

Third-party teaching:

We invite tango teachers or schools to advertise their courses/classes to our members and perform at Club Milongas. They may also provide skill-share sessions by arrangement with the Club.

To further enhance the tango experience of our members, we also arrange for teachers from within the state, interstate, or overseas, to run workshops and/or private lessons at the Club several times a year. These teachers may be remunerated.

Generally, all participants in the classes and workshops are members of the Perth Tango Club, as the Club may subsidise them using Club funds. However, from time-to-time, the committee may allow non-members to attend workshops as long as any differential between commercial and Club pricing is charged.

By adhering to this teaching policy, we aim to promote the art and culture of Argentine Tango and provide our members with a quality tango experience.
